Announcement of an Open Competition for the Selection of an Individual or Company as an External Expert – Supply of Equipment within the AMELIA Project

The **Association Multidisciplinary Academy (AKMU)**, as Project Partner No. 3 and Contracting Authority, announces an Open Competition for the **Supply of Equipment** required for the implementation of the Project **"innovAtive Maturity assEssment modeLs for 5.0 dIgital trAnsformation Improvement", with the acronym "AMELIA"**, funded by the Interreg VI-A IPA South Adriatic Programme 2021–2027.

The AMELIA project aims to enhance the growth and competitiveness of SMEs, including micro-enterprises, in Italy, Albania and Montenegro by developing dedicated tools and a Technological Platform to assess companies' digital needs and support their Sustainable Digital Transformation.

The procurement concerns the supply of equipment necessary to support AKMU in the implementation of the project activities, particularly those related to the development and use of digital assessment tools, the contribution to the design and testing of the Technological Platform, and the overall implementation of the project's activities.

The equipment to be supplied, together with the relevant quantities and technical specifications, shall be detailed in the procurement documentation and shall comply with the requirements established by the Contracting Authority.

The estimated value of the contract amounts to **€2,000.00**.

The procurement is open to economic operators capable of supplying the required equipment in accordance with the technical specifications and conditions established by the Contracting Authority.

Interested candidates are invited to submit their applications, by the following methods:

- **By email:** administrata@akmu.al
- **By post:** Vlore, Rruga Gjergj Kastrioti

The deadline for submission of applications is 30/03/2026

Applications received after the specified deadline will not be considered.
